## 8 tarch 1956

\*ENORANISIS FOR THE EECORD

T On A Har	mah Y di mananani di salah	Tankhand Bandani
	rch I discussed with	Lockbeed Project
		ith Detachment A. It names
	i medical people are not re-	
	based upon the present ex	
	ed as right inguinal hernia	
2.	proposed informally that	in wise of the location of
ase A, the Prope	set might be willing to per-	mit to go overseas
ith the Detachon	ant despite the lack of medi	ical qualification by the
Mapany. Person	ally. I took a dis view of	this suggestion, but to make sure,
called		hief, Medical Staff, and put
he question to i		he was against the idea and
		personnel on ToT overseas had
		ng from such hermias. Apparently,
		and kind of physical exertion
		ithout regard to his occupation.
added	that while am elective bern	niotomy is usually very simple,
		edy medical attention in order
		which leads to gangrene and
	a descine	
n woorr profer re	Designation -
